"NEUTRALITY" AND CHINA

THE PASSAGE of the amended Neutrality Act which makes it possible for all warring nations to buy military supplies in the United States on a "cash and carry" basis will undoubtedly prove of great assistance to Britain and France in their struggle against the German Reich. The effect on China, however, co-operatives. will be appreciably different. The framing of the amendment leaves the way open to a position which will make America the chief accomplice of Japan in the Far East. WE KNOW that this is the

neither of American policy nor of the sponsors of the present measure in Congress. Both public opinion in the United States and the record of the present administration in Pacific Affairs make it perfectly plain where American sympathies — and interests—really lie. ber of Members have availed themselves of the increased facilities offered. The small improvements so far effected have been appreciated and as spon as the courts are again regularly available, it is proposed to renovate and repaint them. LAWN BOWLS

The question of introducing Lawn Bowls, mentioned at the last Annual Meeting was duly tackled and" in the North East corner of the ground has been laid out, what I am told is a very good green. Judging by the numbers making use of this innovation during the summer evenings, it must be considered a success, and will. I am now satisfied, justify the money spent on it. I am glad that this addition to the Club's amenities has not interfered with cricket and tennis.

I have already mentioned that the last of the debentures raised to erect this Pavilion will shortly be paid off, and that then the Pavilion will stand in our books free of any encumbrance.

16 YEARS AGO

As a matter of interest to members, I would recall, the ground floor was completed in 1923, 16 years ago, and the top floor was added five years later. I am glad to be able to inform you the building is in a first class state of repair and should be serviceable for many years to come.
